

Professional Portfolio – Design Document

Student: Simon — Aspiring Software Engineer

Simple planning sketches for the five-page portfolio. These wireframes show the intended structure before coding.

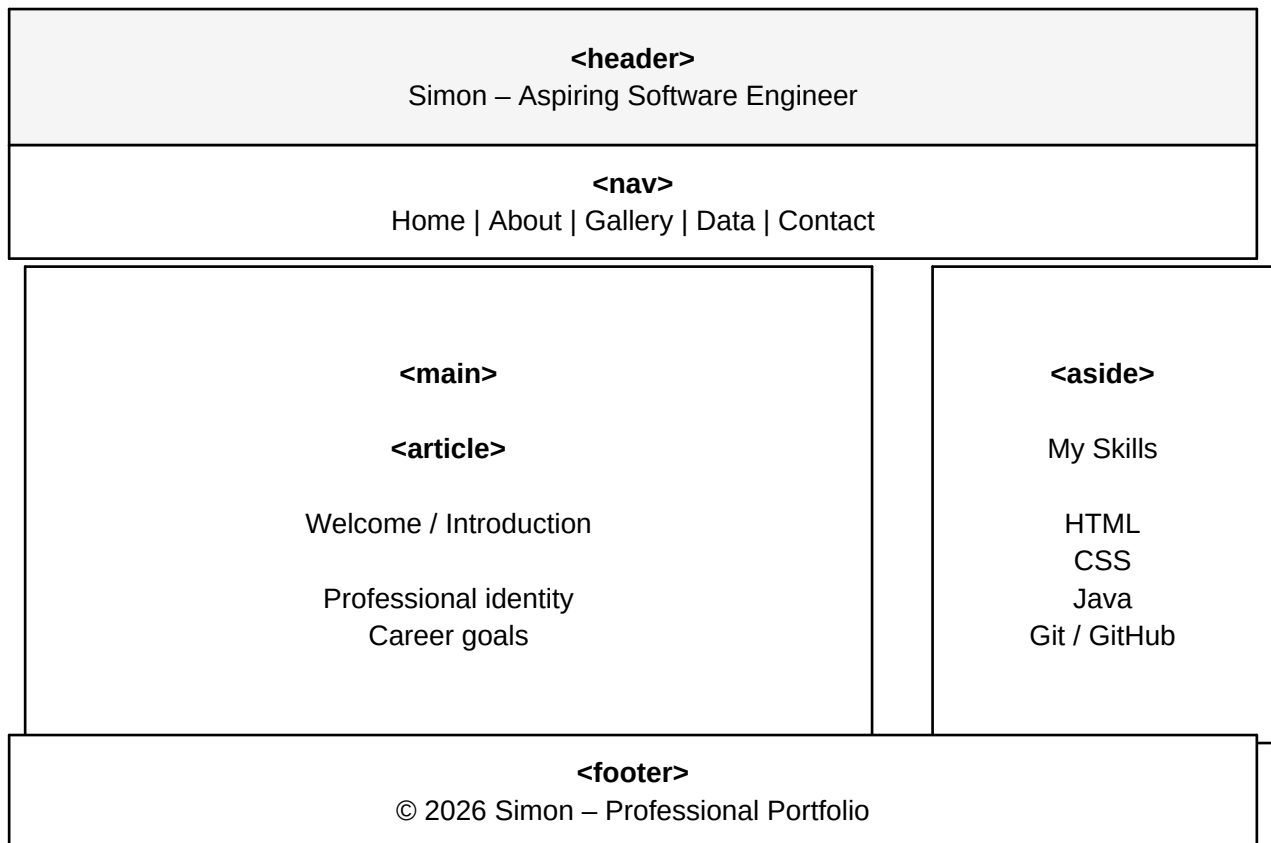

1. Sitemap

The five pages will be connected through a common navigation menu using relative hyperlinks.

2. Home Page Wireframe

Simple working sketch showing the semantic sections planned for the Home page.

The final HTML will use semantic elements instead of unnecessary generic containers.

3. Gallery Page Wireframe

Simple working sketch showing the three required figures and multimedia area.

<header> My Gallery		
<nav> Home About Gallery Data Contact		
<main>		
<figure> IMAGE 1 <figcaption> Short description	<figure> IMAGE 2 <figcaption> Short description	<figure> IMAGE 3 <figcaption> Short description
Video / <object> Multimedia area		
<footer> © 2026 Simon – Professional Portfolio		

Each image will have descriptive alt text and each figure will have a meaningful caption.
